

Quarterly Business Report

This report summarizes the company's performance for Q2 2026. Revenue grew steadily across all regions, driven primarily by the launch of our AI-powered document assistant.

The engineering team shipped 14 major features this quarter, including PDF parsing, semantic search, and a retrieval-augmented generation (RAG) pipeline for customer support.

Regional Sales Breakdown

The table below shows revenue (in thousands USD) per region.

Region	Q1 Revenue	Q2 Revenue	Growth
North America	1,240	1,510	+21.8%
Europe	980	1,105	+12.8%
Asia-Pacific	760	1,020	+34.2%
Latin America	310	365	+17.7%

Team Headcount

Department	Headcount	Open Roles
Engineering	42	5
Data Science	18	3
Sales	25	2

Hiring will focus on machine-learning engineers to support the growing demand for intelligent document processing.
